

Year 3 Geography- Sicily vs Merseyside

Italy is a country located within Europe that is typically a tourist attraction. Its most prominent feature is its boot-like shape kicking the island of Sicily.

Physical Features of Sicily:

Physical Features of Merseyside:

Sicily's Climate

It has a Mediterranean climate, meaning winters are mild and often wet, and summers are hot and dry.

Merseyside's Climate

It has a oceanic/maritime climate with relatively mild summers, cool winters and rainfall spread fairly evenly throughout the year.

Sicily's Food Distribution

The island is very fertile; producing olives, oranges, lemons, eggplants, tomatoes, pistachios, almonds, grapes, and more—not to mention all of the seafood fished right off the coast.

Merseyside's Food Distribution

The region is full of farming markets and shops selling local produce of potatoes, wheats, berries, cheese and farmed meats.

Human features of Sicily:

Valley of the Temples
